Including these four accomplished graduates, there are now 42 North Side High School alumni whose pictures grace the Distinguished Alumni Wall in the Commons Area of the high school.

This wall is a constant reminder to students past and present of the foundation, education, and skills that North Side has and will provide. It is the hope of the Alumni Association that this reminder will help today's students to maximize the opportunities that they have in the time that they attend North Side and how those opportunities can translate to success in their own lives.

Ken Lee, a 1961 graduate, was active in several organizations during his high school years including the Student Council, Math Club (President), F.T.A., and intramural basketball.

Although, he planned to become a math teacher after graduating from Purdue University with a major in math and a minor in Russian language, he earned a four-year Navy ROTC scholarship. His math teacher plans turned into a 23 year Navy career and ten years in business development with Russian former defense enterprises.

Ken's Navy duties were all in the submarine service. He served three years each on four nuclear-powered submarines, including three years as Commanding Officer of the nuclear attack sub USS GATO (SSN 615). Upon retirement from active duty in 1988, Ken continued work in his undersea technologies specialty as a Senior Program Manager for Lockheed Martin Corporation in Riviera Beach, Florida. Beginning in 1992, after the Cold War, he put

his four years of Russian language study at Purdue to good use and initiated successful joint projects for Lockheed Martin with his former Soviet submarine adversaries. He travelled to Russia over a dozen times and spent two months living with a Russian family in an immersion language "brush up."

Having formed friendships with several former Soviet submarine commanding officers, Captain Lee was inducted in 1999 as Member No. 807 into the Submariners and Seamen's Club of St Petersburg, Russia. Captain Lee remains current with his Russian contacts and visits and consults for Lockheed Martin Corporation in both Russian and undersea technology areas.

In 2004 Ken was the first in his Purdue Navy ROTC class to be inducted into the Purdue University ROTC Hall of Fame.

Most recently Ken has served three terms as the President of the Palm Beach Council of the Navy League of the United States, a civilian service organization supporting all the sea services – Navy, Coast Guard, Marines and Merchant Marines. In this capacity he has created community support that has provided over 200 performance awards and thousands of dollars in cash honoraria to the sea service personnel in the Palm Beach area and to the NJROTC, Sea Cadets and Young Marines organizations.

Ken has also been the Military Committee Chair and Emcee for two Navy SEAL fund-raising events in Palm Beach that provided over \$1.3 million dollars to the National SEAL Foundation and SEAL Museum and Memorial for the support of

Navy SEALs and their families. He sits on the Advisory Board for the National UDT-SEAL Museum and Memorial Foundation in Fort Pierce, Florida.

Ken not only served his country during his stellar military career, but continues to serve his community through his dedication to raising support for and awareness of career related organizations. He has also maintained his support of North

### Fred W. Toenges Class of 1946

Fred Toenges at a very early age learned all about work ethic. When he was in his first year at North Side, he worked in his family shoe store business after school and weekends. He did find time while in high school to participate in the Lettermen's Club, Pan-American Club, and Student Council.

Although he planned to play football at North Side, while in intramurals, the track coach, Rolla Chambers, saw his running talent and Toenges soon found himself participating in Track and Field and Cross Country. During his senior year, he and his teammates continued their undefeated winning streak of 62 victories, winning the Northern Indiana Title which is comparable to today's IHSAA State Finals. According to Chuck DeFord, past principal of North Side, "Mr. Toenges still has fond memories of running the indoor track around the upper level gymnasium (16 laps per mile) as well as other running neighborhood routes of the North Side area."

After high school, he went on to serve his country in Korea (1952-53) where he performed duties as a Combat Engineer and as a Supply Clerk. He has been a life-long learner, taking course work at Indiana University, Purdue University, Ball State University, Northwestern School of Medicine and Temple University. During the 2004 Olympics in Greece, Mr. Toenges had the opportunity to work with Olympic athletes, using his background as a pedorthist and assisting athletes with their foot wear.

Today, Mr. Toenges continues to work in the family business, Toenges Shoes, which has become a household name in Fort Wayne and the surrounding area for its quality service and customer friendly staff. In addition, he helped to found the Pedorthic Footwear Association and the Board of Certified Pedorthics and served as president of both organizations.

Locally, Fred has served as a consultant at Lutheran Hospital for Children and at the Diabetic Foot Clinic at St. Joseph Hospital. He is also a charter member and founder of McMillen Park Lions Club and served as president, and he maintains his membership in the North Side High School Alumni Association.

Fred Toenges, a member of "the greatest generation", credits his family and his experiences at North Side High School as major influences in his life's success. His philosophy is, "If you want to be successful, be the best at what you do!"

For the last few years, the North Side High School Alumni Association had been under the very capable leadership of 1973 grad Robin Fish Holley as board president. This October she is completing her term. Those who know Robin well, know that she is extremely dedicated to North Side High School and our Alumni Association. ## Athletic Hall of Fame Induction

The weekend of August 28 and 29 was quite busy at North Side. Friday night, the North Side High School Alumni Association introduced the first inductees to the Athletic Hall of Fame. Before the game each of the new Hall of Fame members or their representatives was introduced to the crowd. These proud athletes represented all of the decades from Harry Leeper in 1931 to Aundrea Brown in 2005.

The next morning we held a breakfast and program for the inductees, their friends, and families. In all, 263 attended the event in North Side's new cafeteria. Each of the recipients received a Hall of Fame medallion and certificate. The plaque that contains their names is now on the wall in By Hey Arena.

## North Side's First Star Athlete

Because there are very few alumni who could represent the early years of North Side, the Hall of Fame committee needed to research the early years of the school and who might be included as a nominee from those years. An easy selection was long time cross country and track coach Rolla Chambers. There was no denying his credentials over the forty-three year span of years as a Redskin coach.

It was a little more difficult to find which of the athletes should be honored. After all, North Side's teams in those years won championship after championship and there were a number of young men who stood out (women were not officially competing in athletic events at the time). But, there was one name that was kept showing up – Harry Leeper. He graduated in 1931 after being a star in football, basketball, track, and golf.

In 1930 he was a member of the track team that was North Side's first championship team. Then, in 1931 he was the top scorer on the basketball team that also won the championship. He led the football team in touchdowns each of the years he played. He was an all-conference player in all of the sports in which he competed. Harry became the first North Side athlete to win the King Award which was given to the athlete who was the best athlete in the school.

After high school, Harry went on to play football at Northwestern University where he was named All American in 1934. His son, Larry, provided the picture of Harry with his All American sweater, which the family has donated to the North Side history room. He also was named to the East West All Star game. He went on to play professional football for two years in the league that eventually became the National Football League.

## Alumni Night 2016

We encourage all North Side graduates, their families, and friends to join us for our February 19 Alumni Night. Our boys' basketball team will take on Carroll that night and the Alumni Association will honor two teams from our history. Last year we honored the 1975 girls' tennis team and the 1995 boys' basketball team. This year we will feature the 1991 wrestling team that won Regionals and had two individual state champions. The other team will be the 1981 girls' gymnastics team. That team won the SAC conference championship, Sectionals, Regionals, and placed 4<sup>th</sup> in the state.

In addition to honoring these teams, we will have a hospitality area staffed by the Alumni Association board. Here you can register for door prizes, renew your membership, buy spirit wear, and socialize with other grads. This promises to be a great evening. Hope to see you there!
